## Summary

---

Motivated software engineering student with a strong passion for backend development and cloud technologies. Currently enhancing my technical skill set by exploring Spring Boot and cloud platforms, with a focus on building efficient, scalable applications. Seeking an internship opportunity to strengthen my technical skills, apply my knowledge in real-world projects, and further develop my expertise in cloud solutions and backend development.

## Education

---

**Applied Science Private University** , BS in Software engineering

Feb 2022 – oct 2025

- GPA: 92%(Excellent)
- Honorary List Student

## Experience

---

**Cloud Architect Associate Intern**, ILINIX – Arizona, (Remote)

Dec 2024 – present

- Participating in a self-paced remote internship to build cloud skills and gain industry certification.
- Currently pursuing AWS Cloud Practitioner certificate then progressing to Solutions Architect Associate, the internship does not require fixed hours, allowing for flexible time management

## Projects

---

### List it e-commerce

- Developed an e-commerce application, utilizing MVC architecture and Entity Framework. The platform allows users to log in, list items for sale, and purchase items. Key features include a dynamic search function with filters by name, location, category, and price. Additionally, users can manage a shopping cart to add items and view the total price before checkout.

## Skills

---

**Languages:** C++, python, Java, C#, SQL

**Technologies:** .NET, Microsoft SQL Server, IntelliJ IDEA, Git, Github, postman, postgres

**Cloud:** Familiar with cloud concepts and AWS services.

## Strengths

---

- Excellent problem-solving skills
- Strong interpersonal skills
- Adaptive learner
- Thrive in multicultural environments
- Team collaboration

## Certifications

---

IBM Back-End Development Specialization (Coursera, 2024)

Duke university & UC san diego Object Oriented Programming in Java Specialization (Coursera, 2025)

AWS Cloud Foundations (AWS Academy, 2024)

## Conferences and seminars

---

**Droidcon Amman** (2024)

**Pocket Gamer Connects Jordan** (2024)

## Languges

---

**Arabic** Fluent

**English** Advanced(C1 placement exam from British council)

**Spanish** Beginner (Currently learning)
